Credit Purchase

For auction property purchases, you acquire credit obligations on the property from the bank. This process allows you to acquire the property at a 40-50% discount from the market price. The House Tenerife team will guide you through every step, ensuring a smooth and secure transaction.

How It Works

With House Tenerife, you purchase a bank loan attached to a property and choose one of two ways to generate profit:

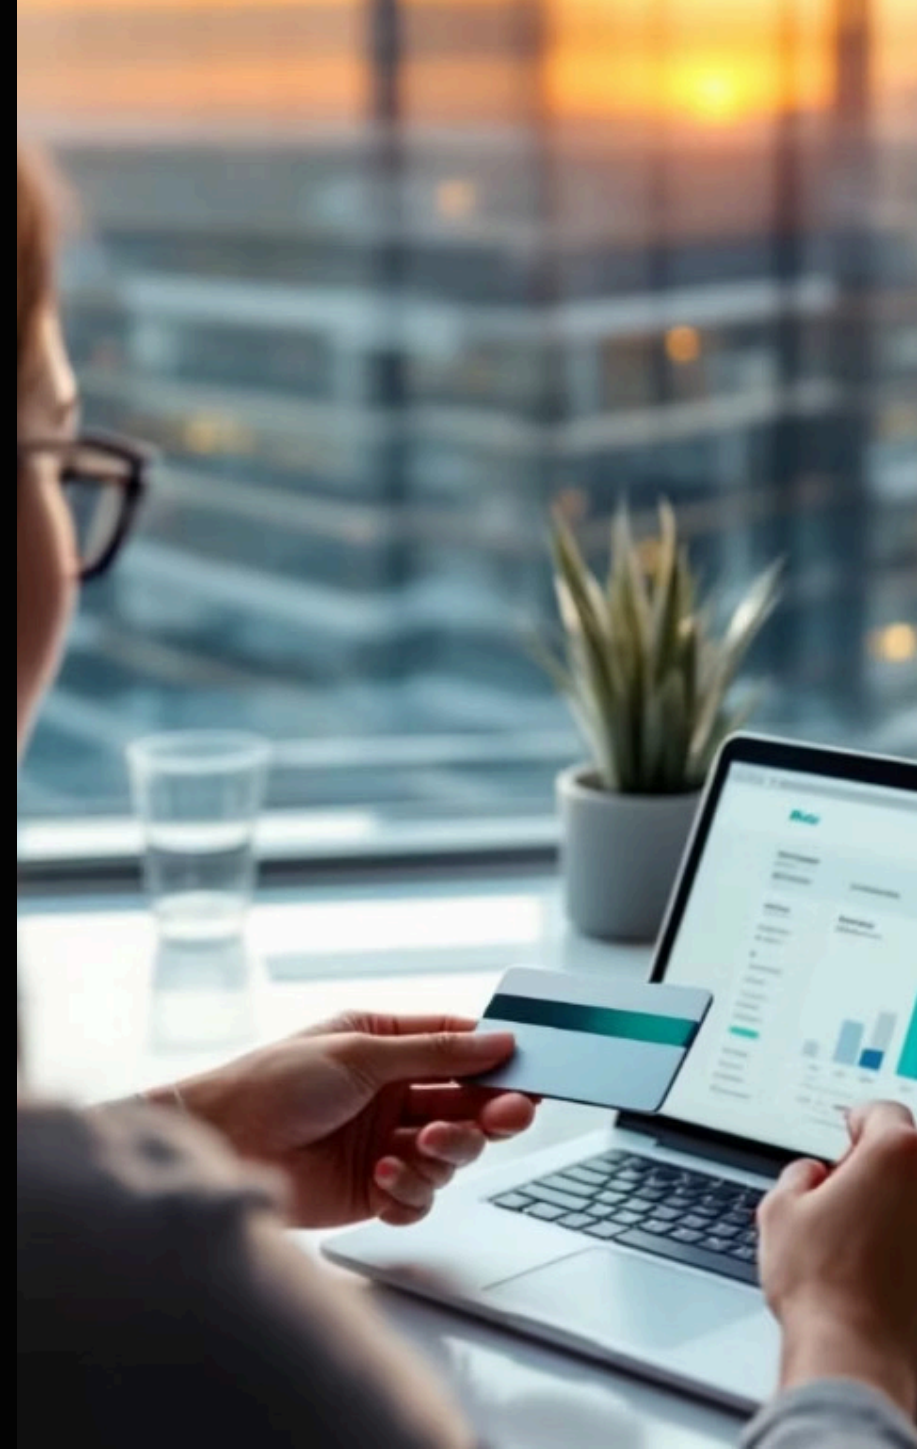

Credit Resale: Sell the loan to another investor and earn a return of 50% to 70%.

Property Acquisition: Become the owner of the property tied to the loan. After selling the property, you can earn up to 130% return.

This gives you the freedom to choose how to maximize the returns on your investments.
